Get to Know DUMC Preschool!

Mission

Dunwoody United Methodist Church Preschool provides a developmentally appropriate education in a loving, Christian environment where children are nurtured and encouraged to develop cognitively, socially, emotionally, physically, and spiritually to their full potential.

Accreditation & Curriculum

Dunwoody UMC Preschool is fully accredited by Cognia. The preschool is also a member of the Georgia Preschool Association and the United Methodist Preschool Association of the North Georgia Conference.

Our programs meet the Georgia Early Learning and Development Standards (GELDS) and the Georgia Kindergarten Standards of Excellence while maintaining a balance of active, child-initiated learning and teacher-directed instruction

Staff

Our preschool teachers are nurturing, skilled and experienced early childhood educators. High standards are maintained by attending workshops, seminars and in-service training classes throughout the year. Each teacher has her own special gifts and talents that make for a loving environment for children.

Parent Council

There are many opportunities for parents to be involved at the preschool. The Parent Council is an active organization that supports our program and unites families in our school. We strive to promote a positive relationship with the family through open and ongoing communication and encourage parental involvement.

Security

Safety is a priority. Strict arrival and departure policies, a monitored security door access system, and an off-duty officer on site during regular school hours help keep the preschool secure.

Kindergarten Program

For the past decade, the curricula and teaching methods in the DUMCP Kindergarten program lay the foundation for success in local public and private schools. We meet all of the Georgia Standards of Excellence, and our classroom allows time for physical movement, active communication, individual and group problem solving, and small and large group instruction.

Specials: Music, Kindergym, and STEM

Music - An experienced music teacher provides a program designed specifically for each age group. Children enjoy music and movement. Performances are held for parents of Threes through Kindergarten classes at Christmas and in the spring.

Kindergym - Designed to promote the growth and development of every child's gross motor and locomotor skills. Students play age appropriate games, develop ball skills, run/climb/jump through obstacle courses, and stretch while having fun.

STEM (3s-K) - Students explore science, engineering, technology and math while developing problem solving, interpersonal, and communication skills.

Extended Day

We offer a lunch hour with supervised play, two additional blocks of time for play, and an array of optional Enrichment Classes such as cooking, art, ballet, tennis, STEM, Spanish, and phonics. There are three EXD sessions per school year, so you can set your child's schedule by session for a consistent weekly plan. Extended Day is divided in three time-blocks:

12:00 - 1:00, Lunch and supervised play; Twos, Threes, Fours; Mon-Fri

1:00 - 1:45, Supervised play or Enrichment Class; Threes, Fours, Kindergarten; Mon-Fri

1:45 - 2:30, Supervised play or Enrichment Class; Threes, Fours, Kindergarten; Mon-Thu
